

Distributors of Specialist Chemical Products to the Polymer Industry

Our principal partners – working in co-operation with HSL to provide innovative solutions and customer service

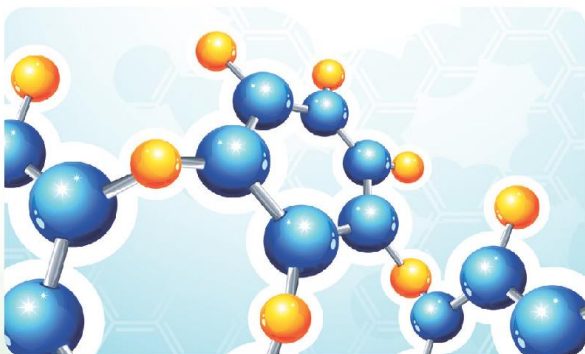

Global companies offering speciality modifiers and functional additives to the polymer industries

Materials that make a difference

Hubron is one of the UK's leading distributors of speciality raw materials supplying the polymer and related industry sectors.

As a technically focused company, we represent globally positioned producers of speciality modifiers and functional additives. From our Manchester based HQ and strategically placed storage facilities, our technically competent sales and marketing team is able to service Customers' needs around the globe. All the products and services we offer help deliver a sustainable improvement in performance and productivity, helping our customers stay at the very top of their business.

Our business philosophy is based on delivering extraordinary levels of customer service, with an approach based on flexible professionalism, and an absolute focus on continuous improvement in all areas of our business.

Our aim is to be regarded as the best in every aspect of our service

Our principal partners are –

Alcoa

Aluminium trihydrate flame retardant

Arkema

Luperox® organic peroxides and Graphistrength® multiwall carbon nanotubes

Bostik

Vitel® solution grade co-polyester resins for adhesives, inks and foil lamination

CVC Thermoset Specialties

Epalloy® epoxy phenol novolacs; Erisys® epoxy functional monomers; Hypro® reactive liquid polymers; Hypox® ready adducted epoxy/CTBN polymers; Omicure® latent epoxy hardeners and accelerators

European Minerals

AluMill® ground ATH; spray dried Magnesium Hydroxide

Franklynn Industries

DiamondKote® mould release agents

Georgia Pacific Resins Inc

CK®, BKR® & BKS® phenolic coating resins and solutions

KingYorker Enterprise Ltd

KingNox®; KingFos®; KingSorb® polymer stabilisers and antidegradents

MLPC International Ltd

Ekaland® and Mixland® + rubber vulcanising agents and accelerators

Omnova Solutions

Chemigum® NBR elastomers; Genflo® SB/SA latices; HydroPliolite®, Pliolite®, Pliotec®, Plioway® coating resins; Pliocord® VP latex; PolyFox® fluorosurfactants; Wingstay® L antioxidant.

Palsgaard

Palsgaard Polymer® and PolyDispers® plastic functional additives

Pflaumer Bros

Teraspartic® polyaspartic resins and Teracure® aliphatic polyisocyanates

Proviron

Proviplast® speciality plasticisers for PVC, elastomers and polymers

SIDIAC

Sivic® NBR/PVC elastomer alloys

Silox

Silox® high surface area, high purity zinc oxides

Sinorgchem

Sirantox® speciality antioxidants for the elastomer industries

Technical Processing Inc

TE80® internal process aid for elastomers

Hubron Repacking Services Ltd

Blending and repacking to customer specification
